ASSEMBLY
DESIGN SIMPLICITY

Duro Reels outstanding designs and built in flexibility saves you time and money. The versatility that you get from Duro Reels is worthy of consideration. They can be relied upon to give you the ultimate in service without maintenance and costly down time.

CONSTRUCTION: All materials are of the finest grade, powder coat and other conversion coatings used on parts before assembly. Cast aluminum, bronze, brass, nylon and steel combats rust factor.

FULL FLOW SWIVEL JOINTS: Precision machined to close tolerance's for assurance of a perfect seal. Attaches to reel as a complete unit and is independent of other moving parts. Standard swivel will handle most gases and liquids.

BALANCED POWER: Cartridge type motor springs are reversible for opposite rotation. Spring is centrifugally aligned around axis for smoother action. Easy job site replacements. Designed for minimized breakage.

HOSE STORAGE: Heavy gauge steel and aluminum reel spools with rolled edges. Spools rotate on large self-lubricating bearings.

HOSE CONTROL: Positive locking with a non sparking ratchet pawl holds hose out at any extended length for tension free use.

HOSE PROTECTION: Nylon hose rollers provide smooth quiet action while extending the life of the hose. Hose guide arms adjust to the proper working angle with a one nut adjustment. Guide arms are made of cast heat treated aluminum.

ELECTRIC POWER REELS: Industrial duty rubbing contact blocks, high amp systems for greater longevity.

EFFICIENCY: More efficiency in high production shops. Improves hose handling by taking much of the physical effort out of the job.

SAFETY: Keep a clean uncluttered area by eliminating the hazard of a loose hose.

VERSATILE: Duro Reels have hundreds of varied applications. They can be customized to fit the job.

LONGEVITY: Low maintenance factor. The need to replace hose is greatly reduced. A most economical and high quality hose reel. The fine choice of materials with designed in features give our products and advantage for greater longevity.
SERVICE PERFECTED
AUTOMATIC REWIND

Heavy solid spun steel disc with beaded edges for maximum protection of hose.

Long life nylon hose rollers turn on solid steel pins.

Roller guide and arm are adjustable to all working positions with one nut adjustment.

Replaceable spring type cartridge house's motor spring and arbor that is safe to handle and simple to replace.

Plastic hose protector on working end of hose.

All brass swivel joint with double O-ring seals, secured independently from other moving parts.

One piece reusable type ball stop is adjustable anywhere along hose.

Flexible lead-in line with female connector for easy hook up.

High grade 300 PSI flexible hose.

All hose threads are standard NPT threads.

Heavy fabricated steel base with slotted mounting holes for easy installation.

Reel turns on self-lubricating bearing. No oil required.

Positive multi-position lock ratchet made of non-sparking material.

* Parts are painted or treated before assembly. All standard N.P.T. threads.

High grade blue steel motor spring balanced in a container with a back-lash arbor.

DURO REELS ARE BETTER
"A creative leadership of new ideas and think ahead quality designs."
HEAVY DUTY HOSE REELS
MEDIUM AND HIGH PRESSURE
LOW PRESSURE AIR, WATER AND OIL

Ideal for large service areas where longer hose lengths are required. Truck terminals, industrial applications and service centers. Hose reels with extra long lengths of hose.

Roller guide arm may be adjusted for top, bottom or ceiling.

One piece ball stop is adjustable anywhere along hose length.

All standard N.P.T. threads.

Multi-Lock latch Non sparking pawl.

Cartridge type motor spring made with high grade blue steel with backlash release.

Heavy 11 gauge frame supports spool on both sides.

Solid cast alloy axle supported on both sides with 1 1/4" pillow block bearings.

Solid heavy spun steel reel disc with beaded edges for maximum protection of hose.

Accessible swivel joints 1/4" to 3/4".

Flexible lead-in line for easy hook-up.

Reels may be stacked in any configuration. (See page 11)

Knock down mounting base reel is easily assembled for right or left hand rewind, top or bottom rewind and swivel on left or right.

2100 Series
Extra long hose lengths up to 100'

DURO REELS ARE BETTER
"A practical solution to many problems"
1200 & 1300 HEAVY DUTY HOSE REELS
MEDIUM & HIGH PRESSURE
LOW PRESSURE AIR, WATER & OIL

Ideal for large service areas where longer hose lengths are required. Truck terminals, industrial applications and service centers. Hose reels with extra long lengths of hose.

FEATURES

- High grade blue steel motor spring matched and balanced to fit the job.
- Reel turns on bronze self-lubricating bearing fitted to solid 1" diameter axle.
- Heavy fabricated steel base with slotted mounting holes for easy installation.
- Multi-position ratchet pawl made of non sparking material.
- Parts are powder coated or treated before assembly.
- Heavy solid spun steel disc with beaded edges for maximum protection of hose.
- Aluminum spring arbor releases spring in case of backlash.
- One piece reusable type ball stop is adjustable anywhere along hose.
- Flexible lead-in line with female connector for easy hook up.
- Plastic hose protector on working end of hose.
- All standard N.P.T. threads.
- All brass swivel joint with double O-ring seals. Secured independently from other moving parts.

F.O.B. Factory
(For mounting plates and enclosures see pages 22, 23 and 24)

NOTE: Other reel sizes for specific space and hose length are available. (Consult factory.) All reels are furnished for overhead mounting unless otherwise specified. Standard color is red. All threads are standard N.P.T. to hose sizes unless otherwise specified.

**NOTE:** Other reel sizes for specific space and hose length are available. (Consult factory.) All reels are furnished for overhead mounting unless otherwise specified. Standard color is red. All threads are standard N.P.T. to hose sizes unless otherwise specified.
GENERAL APPLICATION
For service station, garage, tire centers or factory — where orderly dispensing of water or compressed air may be required.

- TIRE INFLATION • PNEUMATIC TOOLS • BLOWGUNS
- SPRAY PAINTING • FOOD PROCESSING • WASHDOWN

FEATURES

- Sealed and lubricated motor springs assure longer life. Centrifugally aligned, with built in de-clutching device to protect against backlash, avoiding premature spring failure.

- Independent rotating all brass swivel joints, each with four (4) "O" ring seals. Large orifice permits maximum flow.

- Non-sparking positive locking and releasing ratchet, for tension free hose. Heavy self-lubricated bronze thrust type bearing for added life.

- Cast aluminum hose guides with quiet friction free nylon rollers. Adjustable to assure proper alignment with hose.

- Highest quality hose with standard female fittings for installation. One piece adjustable hose ball stop can be secured any place along the hose length.

- Sturdy mounting base with slotted holes for easy installation. Flexible inlet source line makes an easy hook up. Extra large safety axle. Heavy steel reel disc's are beaded for extra rigidity. All materials are protected against rust by heavy powder coat, cadmium plate, heat treated aluminum, bronze, brass or other conversion coatings.

1600 & 1700
ENCLOSED LOW PRESSURE
AIR & WATER

GENERAL APPLICATION
Totally enclosed reels for service station lube rooms, service yard or pump islands, garage centers, commercial kitchens or dairies. Used indoors or outdoors where appearance and hose protection is required. Mounts to ceiling, wall or floor.

FEATURES
- All brass swivel joint with double O-ring seals. Secured independently from other moving parts.
- Heavy fabricated steel base with slotted mounting holes for easy installation.
- Multi-position ratchet pawl made of non sparking material.
- Parts are painted or treated before assembly.
- High grade blue steel motor spring matched and balanced to fit the job.
- Reel turns on bronze self-lubricating bearing.
- Plastic hose protector on working end of hose.

ENCLOSURE
Attractive, beautifully finished enclosures may be had in any color, white is standard. Roller outlets are easily adjusted for ceiling, wall or floor. Two screws give accessibility to reels.

HOSE AND INLET SOURCE LINES
Hose supplied with standard female swivel pipe fittings for easy installation. One piece adjustable hose stop can be installed any place along the hose length. Independent flexible inlet lines with female fittings for easy hook-up.

F.O.B. Factory

### Materials

All materials other than bronze or brass are protected against rust by a heavy powder coat, cadmium plating or other conversion materials.

Hose roller outlet positioned for ceiling mount unless otherwise specified on order.

Standard finish is white powder coat. Enclosures can be furnished in chrome, bright plate or stainless steel at extra cost.

1700 series available with other combinations of hose lengths and sizes, please specify.

F.O.B. Factory
1800 RETRACTABLE WELDING REEL
SINGLE & DOUBLE REELS FOR BI-LINE HOSE COMBINATION WELDING, AIR OR WATER

For more efficiency in high production shop's • Keeps a clean, uncluttered shop and eliminates unneeded cleanup time • Replacement hoses greatly reduced • Saves pick up time on portable equipment • A variety of combinations are offered.

FEATURES

• Sealed motor spring with built in de-clutching arbor. Balanced to give a nearly constant load when extending hose.

• Hose is held out at any working length tension free, by a non-gravity and non-sparking type locking pawl. A slight tug of the hose releases for automatic rewind.

• Cast aluminum hose arm guides are adjustable to all working positions. Ceiling, wall or floor. Quiet, safe, friction free nylon rollers mean less wear to hose lengths.

• Swivel joints have dual housings on a single shaft. Independent housings prevent possible mixture of gases. Swivel is easily removed as one part.

• Reel spools are heavy smooth beaded steel to provide maximum protection for hose chafing. Heavy self-lubricating main bearing pressed into cast aluminum axle hub. All materials are protected against rust by heavy powder coating, cadmium plate or other conversion coatings.

NOTE: Grade ‘T’ hoses available upon request. For hand crank reels consult factory.
1900 MEDIUM DUTY HOSE REELS
LOW, MEDIUM & HIGH PRESSURE
AIR, WATER, OIL & GREASE

Perfect for industrial & commercial shops, tire centers, automotive dealerships, service trucks & fleet maintenance facilities. Heavy gauge steel construction and powder coat finish. Solid steel spool with rolled edges for maximum hose protection and axle supported by dual support base and roller guide arms. Independent rotating swivel joints allow maximum flow. Non-sparking positive locking and release mechanism for tension free use. Cartridge type spring housing for safe and easy replacement.

HEAVY DUTY HOSE REELS
MEDIUM & HIGH PRESSURE, LOW PRESSURE AIR, WATER & OIL

Heavy duty reels built to withstand the rugged service of all lube and service trucks. Heavy 11 gauge steel base supports the reel on both sides. Self Aligning 1 1/4 bearings on both sides. Motor spring type cartridge makes for safe and easy replacement. Hose roller arm is supported on both sides and may be attached top or bottom. Base is designed for stacking reels one on another and secure with tie bar across top. Ceiling wall or floor mounting.

SERIES 3300, 3350 & 3400 HOSE REELS
POWER REWIND 1/4" TO 1 1/2"

CONSTRUCTION

- All welded steel frame
- Heavy gage steel spool with rolled edge's
- Spool turns on pillow block bearings
- Aluminum axle and steel riser will handle most liquid and gases
- All fabricated steel parts painted with baked powder coat before assembly.

STANDARD REEL [Looking at front of hose reel]

- Motor is mounted on left hand side rear
- Swivel inlet on left hand side
- Top hose rewind on spool
- Reels sold less hose

MODEL 3350
When two hoses of equal size and length are required on one reel spool. Each hose has its own inlet swivel and rewinds on a divided spool. Other sizes available.

HOW TO ORDER:
When ordering power hose reel, give model number first then add type of power symbol. (example 3402-DCE.)

After ordering hose reel with desired type of power, add symbol for additional options. (example 3402-DCE-LR.)

Specify other configurations when needed.

WELDING CYLINDER TRUCKS
WITH RETRACTABLE WELDING REEL

This sturdy tubular welding truck with a Bi-Line oxygen and acetylene hose reel will solve a lot of hose problems. A built on hose reel retracts hose back onto the cart, protects hose and saves much handling time. Eliminates messy hoses strung over hand cart and tanks. Comes with hook up lines to tanks.

Model PW-23 Width 32" Height 43"

For large oxygen and acetylene cylinders with a combined diameter of not more than 23 inches. Twelve inch ball bearing wheels with tool tray. Finished in powder coat red.

F.O.B. Factory
CEILING MOUNT ENCLOSURES
FOR INDIVIDUAL OR MULTIPLE BANK ENCLOSURES

- Easily bolted together for a smooth clean look.
- Nylon rollers in aluminum frame guides hose freely.
- Hose reels slide into place and secure with one bolt.
  - No assembly of reel enclosures.
  - Hook up lines furnished with each reel.
- Metal enclosures finished in a white powder coat finish with white or black end panels.

For use with standard 1400, heavy duty 1200, 1300 or 2500 series reels.

(For mounting plates see page 24)
ENCLOSURES
FIBERGLASS

ONE PIECE DURABLE FIBERGLASS CONSTRUCTION
Enhances appearance while giving protection of hose reel. One piece construction for rigidity. Finished in permanent smooth white. Entire cover is easily removed by means of accessible fasteners. Aluminum and nylon roller hose outlet for best hose wear. Enclosures may be purchased separately for use with previously installed hose reels or competitive models.

When ordered with hose reel the unit is shipped completely assembled.

Overhead installations are made easy by means of a slide plate. Plate is secured first then complete unit is slid into place. After connecting the inlet source line the unit is ready to use.

No pre-assembly of enclosure or mounting of hose reels is required.

HOW TO ORDER
First pick out desired hose reel, then order corresponding enclosure from chart below. State mounting position, ceiling, floor or wall. Consult factory for other available colors.

WARRANTY

WARRANTY: Hose reels and component parts manufactured by Duro Mfg. Inc. are guaranteed to be free from defects in material and workmanship for a period of one (1) year from date of invoice.

WARRANTY: Rubber hose not of our manufacture is guaranteed as per original manufacturers' warranty program. Rubber hose is guaranteed to be free from defects at the time it is put to use or reasonable notification of 30 days.

WARRANTY: Other related products sold by Duro Mfg. Inc. not of our manufacturing will be guaranteed in line with OEM warranty.

In any case, parts or units found to be defective by reason of faulty material or workmanship will be replaced at no charge, after inspection by our factory. Duro Mfg. Inc. liability shall be limited to the repair or replacement only. Maximum liability is in no case to exceed the value of Duro unit involved. No returns or charges will be accepted without prior agreement with the factory. This warranty becomes void if equipment has been tampered with or misused in other than intended design function. No responsibility will be assumed for improper choice of models, installation or varied uncontrollable field conditions. We reserve the right to make engineering changes in material and in dimensions for improving the performance of our equipment.

TERMS AND CONDITIONS

TERMS: Net 30 days on approved credit. (Visa, MasterCard accepted).
Minimum billing $15.00
A service charge of 1 1/2% on past due accounts to cover cost of extra accounting.

FREIGHT: F.O.B. Factory.
Our responsibility ends at the acceptance of material by the common carrier. Consignee must file claim for shortages and damaged freight against common carrier if it occurs.

RETURNS: Material returned for credit is subject to a prior notification and a 15% handling restocking fee. Materials returned for credit not resaleable are subject to a rebuilding fee. All returns must be freight prepaid unless prior arrangements are made.

CANCELLATION FEE: A charge will be made on any order cancellation after shipment has been made or any special order for materials not of our stock.

QUOTATIONS: All quotations are for immediate acceptance and are subject to any fluctuation in increased cost of materials after 30 days.

SPEC. DESIGNS: Non standard products to customer's specifications can be canceled on written notice, but are subject to all expenses incurred at that time. Special designs to customer's specification are not returnable.

BUSINESS HOURS: 7:30 AM - 4:00 PM (PST)
